

ELECTROMECHANICAL OPERATOR FOR SLIDING GATES UP TO 400KG WEIGHT

PUMA

EN TESTED 230Vac_ Encoder

Operator for sliding Gates up to 400kg weight
with built-in control board.

- _ Singlephase.
- _ Magnetic limit switches.
- _ Safety: Obstacle detection.
- _ Easy manual release.

PUMA KITS

PUMA 1

_Kit for an sliding Gate up to 400kg weight

Operator KM400S (1 pc.)

Nylon rack N2112 (4 pc.)

Pair of photocells LECP (1pc.)

Plug-in receiver RTPSH250 (1pc.)

Two button transmitter SOL2 (2 pcs.)

** Kit example. Other kit combinations on request*

Other accessories

Key switches, electric locks, flashing lamp, safety edges, magnetic loop metal detector, traffic lights,...

KIT PUMA 1

TECHNICAL DATA

	KM400S
Motor power supply	230Vac/50Hz
Absorbed power	280W
Absorbed current	1,75 A
Capacitor	8mF
Torque	12 Nm
Thrust Force	376 N
Output speed	50 rpm
Lineal speed	16,75 cm/sec
Protection class	IP44
Duty Cycles	25%
Max. Gate Weight	max. 400 Kg
Operator weight	9 kg.
Safety	ENCODER+adjustable torque
Operating temperature	-20° + 70°
Self-locking:	In opening and closing
Manual release	Cylinder key
Limit Switches:	Magnetic
Slow down	Electronically
Adjustable Torque	Electronically
